

Mount Sinai Hospital

Dear Patient,

As you may know, my professional reputation is one of my most valuable assets. To that extent, I try to treat every patient with respect, courtesy, and honesty. I am extremely grateful to you for continuing to help me grow my practice by telling your friends and family about your success and positive outcomes.

With all the computers and technology available today, more and more patients are finding their physicians through the Internet via the web. I would be most appreciative if you could log on to any or all of the web sites listed below, and give an honest review of my practice and my medical care. I would be happy to answer any questions you may have about this, and I appreciate your continued support and referrals.

Sincerely,

Calin S. Moucha, MD
Chief, Adult Joint Replacement &
Reconstruction
The Mount Sinai Hospital
