Management of nerve defects by intraoperative expansion
Problem of defect

- Neuroma resection
Experimental Study
D.E.A. Nancy School of Medicine
France 1992

- Nerve expansion on rabbits sciatic nerves

=> Increase the length of 15% without trouble
• Resorbable plate
• Anchoring the end of the nerve with epineural 7/0 suture
Personnal method

- Direct anchoring with the 7/0 suture without plate

=> Tension control on the node

Dr Jean-Marc CLAISE - Urgence Main Auvergne FRANCE
Same result

- No stretching on the suture
Advantages

- Easy to do
- It works on every size of nerves
Merci
